

AGTech officially becomes Ant Financial Group’s blockchain solution partner

(Hong Kong, September 27, 2019) – AGTech Holdings Limited (“AGTech”), officially established a partnership with Ant Blockchain Technology (Shanghai) Co., Ltd (a wholly-owned subsidiary of Ant Financial Group). AGTech formally became Ant Financial Group’s blockchain solution partner.

In view of the superior resources in the field of blockchain technology of Ant Financial Group, as well as the advantages of technical resources of AGTech, such as application systems in the upper part of blockchain, the two companies will establish a combination of blockchain platform and marketing mechanism through resource sharing, and jointly expand the market and brand to achieve digital and intelligent blockchain application goals.

Based on the ant blockchain platform technology, AGTech will realize and enhance the R&D and business development of blockchain in lottery related products, provide one-stop technical services for customers and businesses. By empowering financial services to enhance data and technology capabilities, together with Ant Financial Group, AGTech will promote the application of blockchain technology in China lottery industry further.
